SUMMARY

With over 2 years of experience, I'm a dedicated front-end developer skilled in designing and implementing responsive web interfaces. Proficient in CSS and React JS Frameworks, I have a deep understanding of UX principles and user psychology, ensuring top-notch user experiences

EXPERIENCE

Front End Developer

Kammun

📅 2021 - 08/2023 📍 Damascus ALjubah

- I worked for a year and a half at this company, where I honed my web development skills and expertise. I crafted three innovative dashboards using React, contributing to enhanced user experiences and improved internal systems' efficiency.
- Furthermore, I developed a sophisticated, responsive e-commerce application and implemented numerous internal pages and eight landing page with multilingual support and a night mode to enhance user experiences. I also implemented best practices in search engine optimization (SEO) using Next.js technology to increased online visibility and attract more visitors.
- This period presented a valuable opportunity for me to cultivate my web development skills and collaborate seamlessly within a multi-disciplinary team. My unwavering commitment to delivering high-quality work and consistently achieving goals has been a constant throughout my journey

internship as a Front-End Developer

Sa3i

📅 04/2020 - 01/2021 📍 Location

- My journey at this company began with a six-month internship, providing me with a valuable opportunity to gain practical web development knowledge. During this period, I immersed myself in fundamental web development technologies, honing my skills to undertake independent projects. This foundational experience has significantly contributed to my professional growth in this field

Graphic Designer

Oscar mall

📅 11/2018 - 01/2020 📍 Damascuse Aladwe

- I have garnered approximately one year of experience working as an advertising designer within a mall in Damascus. My proficiency in Adobe software suite is extensive, allowing me to navigate them seamlessly and transform designs into functional websites. Additionally, I possess the skill to work with SVG files, enabling me to create unique and engaging animations.

EDUCATION

Information Technology (BAIT)

Syrian Virtual University

TECH STACK

5 - admin control panel

8 - build Landing Page

2 - Dealing with ready-made designs

2 -build E-commerce

React	Nextjs	sass / boostrap
